FORD AGENTS DON'T FEEL DULL TIMES

Business at the Schuman Carriage Company has been brisk as usual during the past week, and the slump which has been complained of in some business circles has not been in evidence even in the slightest degree.

The popular Ford has been having a wonderful run of popularity during the entire season with no appreciable let-up, and the past month has been one of the biggest months in the entire year. This is but a natural result, as every Ford buyer is a booster, and the Ford owner is always so pleased with his car that he is continually urging his friends to buy one.

During the past week Judge Clemens of the Federal Court has purchased a Ford runabout equipped with electric lights and self-starter.

O. J. Whitehead, the recently appointed general agent for the Singer Sewing Machine Company, has taken delivery of a Ford touring car, to be used in his business.

F. E. Harvey is the purchaser of a Ford service wagon, which he will use while travelling about the islands in his business as surveyor and engineer.

G. S. Raymond, the newly appointed school supervisor, is using a Ford runabout, as is also Arthur S. Case, the Supervising Principal of Maui.

Major Wallace De Witt of the medical corps, at the Schofield Barracks, is the purchaser of a Ford touring car.

The Studebaker is also one of the

most popular cars of the season, and the manner in which they are standing up under all conditions is causing much favorable comment on the street.

George Macy was the purchaser this week of a Studebaker "54." George, however, will not use his new car on his fishing trips.

Dr. K. Yawagihara, of Kaula, had a Studebaker shipped to him last week, after a thorough investigation of all the leading makes to be found in Honolulu.

A thirty passenger Velle truck has been put in the passenger service between Laie and Honolulu. This is another link in the chain of trucks which are doing so much toward the development of windward Oahu.

"CASCARETS" RELIEVE SICK, SOUR STOMACH

More acids, gases and clogged-up
waste from Stomach, Liver,
Bowels—Cure Indigestion

Get a 10-cent box now.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing too—advertisement.

HILO LIBRARY SITE ORDERED SOLD AT AUCTION

Boosting the upset price from \$5,000, as set by Commissioner Tucker, to \$7500 the land commission yesterday ordered the sale at public auction of the old library site in Hilo. Situated on Wai'anue street and being lot 7 in block A, the piece contains an area of 5000 square feet. It is in the heart of the business section of the city, and the commissioner stated that there were sixteen or seventeen applicants for the property.

When the commissioner said that a financial house in Honolulu had a certified check for \$7500 ready to deposit for the purchase of the land, Chairman Trent declared that he was opposed to making the upset price \$2500 less than what was actually offered.

On motion of Andrade, seconded by Dwight, it was unanimously ordered that the land be advertised for sale at auction at an upset price of \$7500.

The board agreed with the commissioner that it would be inadvisable to place in the notice a condition of erecting a concrete building on the premises. The territory would lose \$5000 by such a condition," Tucker had said. "Hilo has established fireproof limits and can look after its own buildings."

Another lot in Hilo was ordered sold, being a remnant of 3099 square feet on Walluku street, in the residence portion, the upset price to be \$500. Several people are after it, so that the upset price will likely be much exceeded.

Tucker expects the library site to bring at least \$10,000. In the course of informal conversation at the close of business, the members expressed themselves in terms of warm denunciation of various alleged sacrifices of the public interests in the disposal of portions of the public domain and water rights appurtenant thereto. This line of talk began with a reference to the sale of the Walluku river water license to L. S. Connors, holder of the Hilo street railroad franchise. It was mentioned with dis-

approbation that the sale was advertised only in the Hawaii Herald, a paper conducted by Connors, while there were people in Honolulu ready to have paid much more than the license brought but who knew nothing about its disposal until after the event.

Trent compared such methods of dealing with public interests with the conduct of a certain bank, which advertised a foreclosure of mortgage in a "paper that nobody read," with the result that there were no outside bidders present at the sale.

A deal in the everlasting Kapaa lands which was recalled with bitterness all round, was that of the exchange of 1000 acres of richest cane land for a tract of mountain land, the latter being accepted by the government for a forest reserve, and it was remarked by two or three of the commissioners that the forest reserve was chiefly valuable in conserving water for the plantation.

There was a little informal talk about the Kapaa pineapple cannery site, it being rumored that the application therefor would likely be withdrawn, as being unsuitable partly from too close proximity to the sea, which will subject the cans and machinery to deterioration from the saline atmosphere. As there was no definite information on the subject, nothing regarding it went on record.
